WEEK 2

Aim

To design and develop a **Static Campus Placement Application for Anil Neerukonda Institute of Technology & Sciences (ANITS)** using HTML5 and CSS3, demonstrating semantic webpage structure, responsive layouts, navigation menus, forms, and attractive styling.

Description:

This experiment involves developing a static Campus Placement Application using only HTML5 and CSS3. The application is designed as a professional institutional placement portal that provides information about the Training and Placement Department, student registration, student login, participating companies, placement information, and contact details.

The application consists of interconnected webpages including Home, About, Student Registration, Registration Success, Student Login, Companies, and Contact pages. HTML5 semantic elements, hyperlinks, images, lists, tables, forms, HTML5 validation, and iframes are used to structure and organize the website. CSS3 is used to provide responsive layouts, Flexbox, backgrounds, gradients, hover effects, box shadows, border radius, transitions, and other styling features.

The website provides students with an interactive and well-organized interface for accessing campus placement-related information

<!-- About Section -->
<section class="about">

    <h2>About the Training & Placement Department</h2>

    <p>
        <strong>Anil Neerukonda Institute of Technology & Sciences
(ANITS)</strong>
        has a dedicated Training & Placement Department headed by
        <strong>Prof. P. Padmaja</strong> and supported by experienced faculty
        coordinators. The department is committed to maximizing student placements in
        both software and core engineering sectors through continuous skill development
        and industry engagement.
```

ANITS provides comprehensive Campus Recruitment Training (CRT) covering Quantitative Aptitude, Logical Reasoning, Verbal Reasoning, English Communication, Group Discussions and Interview Skills. These programs are conducted by experienced trainers to prepare students for campus recruitment.

Recruiter feedback and alumni performance are regularly analyzed to improve training strategies and align them with industry requirements. The institute offers excellent placement infrastructure including modern laboratories, seminar halls, interview rooms and advanced computer facilities.

Through dedicated efforts and strong industry collaborations, ANITS has consistently achieved an excellent placement record with leading multinational companies visiting the campus every year.

<h3>Our Department Focuses On</h3>

Identifying employment opportunities for engineering graduates.
Building strong industry–academia partnerships.
Providing comprehensive Campus Recruitment Training (CRT).
Organizing expert lectures, workshops and seminars. Conducting aptitude,

```
            coding and communication training.</li> <li>Preparing students for Group Discussions
            and HR Interviews.</li> <li>Facilitating internships and industrial visits.</li>
            <li>Promoting innovation, entrepreneurship and career
development.</li>
        </ul>

Result:

The Static Campus Placement Application for ANITS was successfully designed and developed using HTML5 and CSS3. The application includes interconnected webpages for Home, About, Student Registration, Registration Success, Student Login, Companies, and Contact. The project demonstrates semantic HTML elements, navigation, forms, tables, responsive design, and CSS styling to create a professional static placement portal.
